Final vote on Ordinance No. 4019:

AN ORDINANCE ADOPTING THE FISCAL YEAR 2017-2018 BUDGET ADDRESS

BE IT ORDAINED BY Mayor and Councilman of the City of Gonzales, Louisiana:

That the Fiscal Year 2017-2018 Budget Address be hereby amended as follows:

**CITY OF GONZALES
BUDGET ADDRESS
2017-2018**

These budgets reflect a projection of the requirements necessary to ensure that the City of Gonzales continues to provide the level of services it currently provides. There are some assumptions that must be set forth that are relative to the overall operation of the city. Those assumptions are detailed below.

SALES TAX BUDGET

Sales taxes account for 70% of the revenues in the General Fund and a substantial portion of the revenues in the Capital Outlay Fund. The administration watches sales tax revenue as an important indicator of the city's ability to provide services in the future. The administration projects that the city will collect \$14,800,000 in sales taxes in the current fiscal year compared to \$14,180,000 in the previous year. This represents a 2.5% increase in sales tax revenue.

Fiscal Year	Sales Tax Collections	% Increase from Prior Year
FY 2017	\$ 14,800,000	2.50%
FY 2016	\$ 14,180,000	0.80%
FY 2015	\$ 14,065,000	2.23%
FY 2014	\$ 13,757,069	6.47%
FY 2013	\$ 12,920,857	5.92%

The increase in sales tax can be attributed solely to the jump in retail sales related to flood recovery efforts. This is not an increase that we expect will last indefinitely.

Outside of flood recovery, sales tax collections in the city began to stagnate early in the past year despite the opening of many new business and fast food restaurants. We believe this is the result of two primary trends. The first is the shifting of retail sales from the city to the parish. Ascension Parish has seen an accelerated growth of retail that was once much more prevalent in the city. There are now two Walmart's open in the parish outside of Donaldsonville and Gonzales, with a third soon to open, along with a new Frais Marche grocery in Prairieville, and several drug stores (CVS & Walgreens) which are huge sales tax generators. The recent closing of the K-Mart in Gonzales will also have an effect on the pharmacy sector. Additionally, the current uptick in online sales is really cutting into sales of our more traditional brick and mortar retailers. This is a trend that the administration is watching closely. During the latter part of the year sales taxes rebounded. We believe this was caused mostly by sales related to August 2016 flood recovery purchases.

The administration has decided to take a conservative approach and set the projected sales tax revenues for the upcoming fiscal year at \$14,400,000.

OTHER REVENUES

Other significant sources of revenues in the General Fund include:

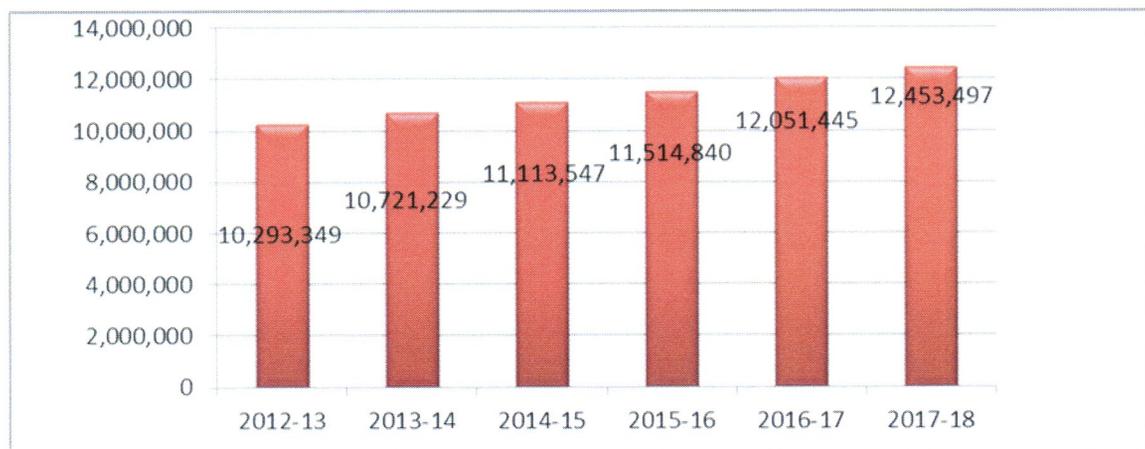

Revenue	FY 2018 Budget
Property Taxes	\$ 1,100,000.00
License & Permit Fees	\$ 1,369,000.00
Franchise Fees	\$ 962,000.00

PERSONNEL AND HUMAN RESOURCES

Retirement

The Municipal Employees Retirement System (MERS) employer portion of the retirement premium will increase by 1.5% percentage points to 24.75%, representing a \$73,000 increase. The employer portion of the Municipal Police Employees Retirement System (MPERS) will decrease by 1.0 percentage point to 30.75%, or \$28,300.

GONZALES PERSONNEL RELATED COST

Reorganization of Recreation Department and the Creation of Buildings and Grounds

The city has seen steady growth in the number of buildings that it must manage and maintain to run city operations, including several facilities that the city rents for events. In the current fiscal year the city acquired the building at 320 E. Ascension Street which it rents to the Office of Motor Vehicles and other tenants. This has created a new revenue stream that we will circulate back into building maintenance.

We have traditionally handled many of these tasks using public works employees within the Recreation Department. In light of the increased maintenance requirements, the city will reorganize the Recreation Department into a Buildings and Grounds Department and a Recreation Department, with the majority of the employees moving to Buildings and Grounds. A few of the employees will be considered swing employees who may do work in both departments, depending on the amount of labor needed at the ballfields during the busy sports seasons. With this reorganization, we are also recommending the elimination of one position. We have included organizational charts within this budget illustrating the positions allocated to each department.

Athletic Fields Maintenance Services

In the current year, the city has successfully experimented with contracting within the Recreation Department for athletic field maintenance services. The city intends to extend this contract.

Recreation Management

The city has realized steady growth in its athletic programs. The city manages boys and girls leagues for both baseball and basketball, provides several facilities to the Gonzales Soccer Club, provides facilities for a swimming league and public swim, and will soon be providing facilities for a youth football league. The city currently has an \$18,000 contract with Allsport Recreation to manage its baseball leagues. We are recommending increasing this contract to \$48,000 to handle all facets of our sports leagues, which will include league management, handling on-line registrations, insurance, and league sponsorships. Allsport will be responsible for recruiting, training, and supervising all seasonal employees for the sports leagues. Most importantly, Allsport will be responsible for consistently administering all applicable laws, rules, and regulations set forth by the Mayor, City Council, and Recreation Commission.

Personnel Requests

As part of the reorganization, we are requesting the upgrade of one laborer position (Range 1) in the Recreation Department to a Field Maintenance Apprentice position (Range 3). This position will be a full time employee tasked with working with the field maintenance contractor to learn all elements of athletic field maintenance, and to ensure that all related facilities, such as concession stands, bathrooms, bleachers, scoreboards and speaker systems are all kept in clean working order. This employee may direct other employees who will be needed in the Recreation Department during the busy sports seasons.

In anticipation of the retirement of the current City Clerk in the upcoming fiscal year, we have included additional funds in this budget to hire a new City Clerk. We expect that the incumbent in this position will spend several months paralleling the existing City Clerk and training in all aspects of the position.

INSURANCE

Worker’s Compensation, Liability and Property Insurance Accounts

The city’s general insurance accounts, which include liability, property, and worker’s compensation insurance, total \$995,412. In the upcoming budget we have broken out separate line items for each of these insurance types within each department. This will give department heads a better idea of how insurance expense is allocated across the city departments.

Health Insurance

The city’s health insurance budget will increase from \$1,587,800 to \$1,625,100 in the upcoming year, or \$37,300, which represents a 2.35% increase over last year.

Monthly budgeted health insurance premiums are listed below:

Health Insurance Table	
Coverage	Monthly Rate
Family	1,835.19
Employee - Spouse	1,289.28
Employee - Child	1,192.99
Single	645.53

UTILITY FUND BUDGET

Natural Gas

We are projecting that the city will spend approximately \$535,000 purchasing natural gas on a budget of \$560,000. The city’s gas sales are expected to exceed \$1,270,000.

The city’s cost of operating the Gas Department last year was \$969,475, bringing the total cost of the gas system to \$1,334,396. The natural gas rate charged by the city is a function of the price paid by the city for gas and the cost of

operating the city's gas department broken down by MCF. The city sold 136,683 MCF of natural gas in 2016. The amount charged to customers for direct city gas costs will remain at \$7.09 per MCF in the coming Fiscal Year.

Utility Rates

Water and sewer rates will increase 3% to keep up with inflation and the increased costs of operating the system.

Personnel Request

We are requesting to elevate one position in the Wastewater Department from a Wastewater Operator (Range 8) to a Wastewater Pump Technician (Range 9), amounting to a five percent adjustment. This adjustment will ensure that the city maintains at least one position with the proper pump technician training to maintain the city's complicated array of wastewater pumps.

DEQ STATE REVOLVING LOAN

The city currently has one outstanding \$15,000,000 line of credit with the DEQ State Revolving Loan Fund for Wastewater Improvements. The current loan balance is \$4,205,414. In the coming Fiscal year, the city expects to borrow \$5,000,000 against this line of credit for wastewater facilities enhancements.

In accordance with bond covenants, the city has established a "Series 2014 Bond Reserve Fund" and a "Utility Fund Investment Account", both serving the purpose of securing future loan payments in case of impending default. Current balances in these accounts total \$944,324.

CAPITAL OUTLAY BUDGET

The city is proposing a Capital Outlay Budget of \$12,949,920.

The proposed Capital Outlay Budget is highlighted by \$5,642,000 in proposed wastewater projects, including the completion of two regional lift stations in preparation for economic growth on the southern limits of the city. The Wastewater Department will also begin construction on a major expansion of the city's wastewater plant. Up to \$5,000,000 of this work will be financed through the DEQ State Revolving Loan Program.

The city is planning an extensive rehabilitation project at Rome Street and Municipal Park. The aging and leaking two inch water line that services the homes along the south side of Rome Street will be abandoned, and those homes will be connected to the eight inch water line that runs beneath the parking lot in Municipal Park. Sewer connections for those same homes will also be rehabilitated into the sewer line that runs beneath the ditch along the boundary at Municipal Park. The drainage in the ditch will then be improved with subsurface drainage, and the aging parking lot in Municipal Park will be resurfaced once the infrastructure work beneath it is complete. The cost of the entire project is projected to be \$1.25 million, and will involve work for five different city departments. The project has been budgeted as a stand-alone project within the Capital Outlay Budget.

The city has budgeted \$2,940,000 in proposed road improvement projects, which includes continuing with the Local Road Maintenance Program overlays, concrete patching, construction match for several DOTD projects, and improvements on Burnside both downtown and to the south of the city along the Conway Development.

The city is planning \$880,000 in water and gas system projects. We have also budgeted \$350,000 in both the Gas Department and Water Department to accelerate the program currently underway to replace all manual read water and gas meters with remote radio read meters. This will eliminate the need for contracted meter reading services.

SUMMARY

The city administration has prepared this presentation to the best of our ability with the knowledge of the financial circumstances of the city at this time. We feel that we have herein fairly represented revenues and expenditures and the overall positive impact they will have on present and future endeavors of this administration.

It is the intent of this presentation to hereby grant the Mayor the power to administer these budgets within a margin of plus or minus 5%, this being presented in the interest of expediency, legality, and/or unforeseen and unplanned emergencies.
